Rates decrease on the following:

- North American Charter® Plus 10 and 14
- Performance Choice® 8
- NAC VersaChoice® 10

Level Lifetime Payment Amounts (LPAs) decrease on the following:

- NAC BenefitSolutions® 10

NEW - NAC Guaranteed AllocationSM fixed index annuity

Pre-built Model Blend allocations designed to optimize your client's annuity performance and simplify the allocation process.

- **Guaranteed rates:** Rates are guaranteed for the entire surrender charge period!¹
- **5-, 7-, and 10-year surrender charge options**
- **Seamless, turnkey diversification:** Choose from four Model Blend options with preset allocations for built-in diversification with automatic rebalancing on each contract anniversary
- **Strong accumulation & growth potential:** Index options are available from one of the premier brands, S&P.

1. After this period, fixed and index accounts will be declared annually. A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state.

1. The declared fixed rate is an annual effective rate. Interest is credited daily.

2. Known as a strategy fee annual percentage in the contract. In exchange for the charge, an enhanced participation rate is received. The charge is multiplied by the number of years in the crediting term and is deducted once each term from the accumulated value allocated to the enhanced participation rate method. The charge will be deducted once each term at the earliest of any partial withdrawal that exceeds the penalty-free amount, a full surrender or the end of the term. The strategy charge will be deducted regardless of the interest credited to the contract and can lead to loss of premium in certain scenarios. Strategy charges are considered a partial surrender outside of the available penalty-free amount and for purposes of the return of premium feature will reduce the net premium accordingly.

The NAC VersaChoice® is issued on base contract form NA1012A/IC17-NA1012A.MVA or appropriate state variation including all applicable endorsements and riders by North American Company for Life and Health Insurance®, West Des Moines, IA. Product and features/options may not be available in all states or appropriate for all clients. 1. The declared fixed rate is an annual effective rate. Interest is credited daily.

2. Known as a strategy fee annual percentage in the contract. In exchange for the charge, an enhanced participation rate is received. The charge is multiplied by the number of years in the crediting term and is deducted once each term from the accumulated value allocated to the enhanced participation rate method. The charge will be deducted once each term at the earliest of any partial withdrawal that exceeds the penalty-free amount, a full surrender or the end of the term. The strategy charge will be deducted regardless of the interest credited to the contract and can lead to loss of premium in certain scenarios.

Disclosures

Rates are effective as of publication date and are subject to change. Rates may vary by premium, surrender charge period and/or guarantee period selected.

Fixed index annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from the accumulation value for optional benefit riders or strategy fees or charges associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.

Premium bonus: Premium bonus and Enhanced premium bonus may vary by annuity product, premium band, issue state, and surrender charge period selected and may be subject to a premium bonus and enhanced premium bonus recapture. Products that have premium bonuses may offer lower credited interest rates, lower index cap rates, lower participation rates and/or greater index margins than products that don't offer a premium bonus. Over time and under certain scenarios the amount of the premium bonus and enhanced premium bonus may be offset by the lower credited interest rates, lower index cap rates, lower participation rates and/or greater index margins.

Surrender charge: A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state.

GLWB: GLWB bonus and GLWB stacking roll-up credit are not applied to the accumulation value, only to the GLWB value, which is used to determine the lifetime payment amount. The GLWB value is not available for withdrawal, surrender or as a death benefit. There is no GLWB stacking roll-up credit in years when a withdrawal is taken or lifetime income payments have been elected. GLWB stacking roll-up credit is available if a required minimum distribution (RMD) is required.

Index accounts: Crediting methods such as index cap rates, participation rates, and index margins apply to index accounts only; not to the fixed account. Crediting methods and indexes are not available on all products or in all states.

Annuity interest rates effective April 8, 2025

Issued by North American Company for Life and Health Insurance®

In calculating the performance of the index, Morgan Stanley deducts, on a daily basis, a servicing cost of 0.50% per annum. This reduces the positive change or increase the negative change in the index level and thus decreases the return of any product linked to the index. The volatility control calculation applied by Morgan Stanley as part of the index's methodology may decrease the index's performance and thus the return of any product linked to the index. In addition, because the volatility control calculation is expected to reduce the overall volatility of the index, it will also reduce the cost of hedging certain products linked to the index.

Neither Barclays Bank PLC ("BB PLC") nor any of its affiliates (collectively, "Barclays") is the issuer or producer of fixed index annuities and Barclays has no responsibilities, obligations or duties to policyholders in fixed index annuities. The Barclays Transitions 12 VC Index™ and the Barclays Transitions 6 VC Index™ (the "Indexes"), together with any Barclays indices that are components of the Index is licensed for use by North American Company for Life and Health Insurance ("NACOLAH") as the issuer or producer of fixed index annuities (the "Issuer").

Barclays' only relationship with the Issuer in respect of the Index is the licensing of the Index, which is administered, compiled and published by BB PLC in its role as the index sponsor (the "Index Sponsor") without regard to the Issuer or the fixed index annuities or policyholders in the fixed index annuities. Additionally, the Issuer may for itself execute transaction(s) with Barclays in or relating to the Index in connection with fixed index annuities. Policyholders acquire fixed index annuities from the Issuer and policyholders neither acquire any interest in the Index nor enter into any relationship of any kind whatsoever with Barclays upon making a purchase in fixed index annuities. The Goldman Sachs Equity TimeX Index is managed to a volatility target, and as a result the index performance will not match the performance of any other index or the markets in general since volatility control tends to reduce both the rate of negative performance and positive performance of the underlying index, thereby creating more stabilized performance. The Goldman Sachs Equity TimeX Index has been in existence since 7/28/2023.

Fixed index annuities are not a direct investment in the stock market. They are long term insurance products with guarantees backed by the issuing company. They provide the potential for interest to be credited based in part on the performance of specific indices, without the risk of loss of premium due to market downturns or fluctuation. Although fixed index annuities guarantee no loss of premium due to market downturns, deductions from the accumulation value for optional benefit riders or strategy fees or charges associated with allocations to enhanced crediting methods could exceed interest credited to the accumulation value, which would result in loss of premium. They may not be appropriate for all clients. Interest credits to a fixed index annuity will not mirror the actual performance of the relevant index.

Surrender charge: A surrender during the surrender charge period could result in a loss of premium. Surrender charge structure may vary by state.

Index accounts: Crediting methods such as index cap rates, participation rates, and index margins apply to index accounts only; not to the fixed account. Crediting methods and indexes are not available on all products or in all states.

New business guidelines

Interest rates and interest credit factors (“rates”) can change after we receive applications and before we receive the premiums. In order to qualify for a rate hold, the following must occur:

- Must receive premium within 60 days of application signed date.
- Rate will be based on more favorable rates between* application signed date and premium received date.

If the 60th day falls on a weekend or holiday, the premium must be received on the business day before the weekend or holiday.

*Rate hold only applies for the first guarantee period.

Sammons Financial® is the marketing name for Sammons® Financial Group, Inc.'s member companies, including North American Company for Life and Health Insurance®. Annuities and life insurance are issued by, and product guarantees are solely the responsibility of, North American Company for Life and Health Insurance.

Ask your financial professional for current interest rates, 1035 exchange/transfer guidelines and new business guidelines on how timing of rate changes are applied to new applications received.

The term financial professional is not intended to imply engagement in an advisory business in which compensation is not related to sales. Financial professionals are independently contracted with North American and are insurance licensed that will be paid a commission on the sale of an insurance product.

Insurance products issued by North American Company for Life and Health Insurance®, West Des Moines, Iowa. Product and features/options may not be available in all states or appropriate for all clients. See product materials for further details, specific features/options, and limitations by product and state. The NAC Guarantee PlusSM is issued on form ICC21-NA1016A/NA1016A (contract), and ICC21-AE639A/AE639A (riders/endorsements) or appropriate state variation. 1. Rates are current as of publication date and are subject to change at any time. Rate may vary by premium band and guarantee period selected. The declared fixed rate is an annual effective rate. Interest is credited daily. 2. A surrender during the surrender charge period could result in a loss of premium. Surrender charge structures and periods may vary by state. Surrender charges and market value adjustment may reset with renewal. 3. Under current law, annuities grow tax deferred. An annuity is not required for tax deferral in qualified plans. Annuities may be subject to taxation during the income and withdrawal phase. Please note neither North American nor any agents acting on its behalf should be viewed as providing legal, tax or investment advice. Consult with and rely on your qualified advisor. 4. Withdrawals during the surrender charge period will be subject to surrender charges and possibly a market value adjustment. Withdrawals may be subject to IRS penalties or taxation, please rely on a qualified tax professional regarding withdrawals. 5. Included for all issue ages. May not be available in all states. Please contact your financial professional for state availability.
